MAIL BID LIST #15

CLOSING

SEP 27 1987

U.S. collectors will find several bargain lots of grouped pieces good for showcases and bourses as well as a handful of scarce Sales Tax Tokens. Look for a good variety of mining tokens from Chile. A large collection of German trade tokens can be found as well as some rare pieces from Eastern Europe. Another French Foreign Legion piece from Morocco is here as well as a small collection of tokens from Egypt. Several scarce and at least one unlisted Mexico Transportation token are listed. **Military Tokens** collectors should look at the listings for British Isles, Canada, Chile, China, Cuba, France, Germany, German East Africa, Iran, Isle of Man and Morocco. Please note that I have raised the Minimum Bid or Reserve to at least \$3 for all lots. I probably will not raise this minimum again for awhile. Good collecting to you!

Lot descriptions are of necessity brief and oriented to numismatists. Sizes are in millimeters, although larger paper pieces are often in inches. Tokens are round unless otherwise indicated. Materials are shown as Al, Br, Cop, Ir, Ld, Nkl, Zn or Pl(astic). When parentheses are used it means that the information enclosed is not in the token legend or describes some device on the token. Catalog numbers are often used to aid description, e.g. (L#101.3) and refer to the most standard U.S. work on the topic at hand. Since listing each reference would be too cumbersome, please write if you need to know which. Dollar values written simply (\$5) mean a suggested bidding range. An MB enclosed with a dollar value in parentheses (e.g. (MB\$25)) means a "Reserve" or "Minimum Bid". FP means that several pieces are available and sell for fixed prices only. Grading can be only approximate in a series as varied as tokens. I try to be conservative and in most cases have reduced items by one grade where there is any question in my mind.

From time to time more than one specimen of a lot is submitted on consignment. This happens with less than 1% of the lots, and mainly with items selling under \$10. Rather than list each such item, I will offer the other specimen at the winning bid price if it is the same grade and the second bid is within 15% of the top. If the grade is lower, the price will be adjusted. You are under no obligation to purchase in such a case. Comments on my listings and methods of operation are always welcome.

CHILE HARD RUBBER MINE TOKENS SPECIAL! I have ten batches of 20 diff tokens for \$40 a batch plus \$2 post/ins. That \$2 per token. They are mostly commoner pieces, but not all. Good for dealers who go to lots of shows. Over the counter they sell for \$6-10 ea. Or for beginners who want to start out cheaply. Prepackaged. Each pkg may be diff. Nitrate, copper, coal mines plus 2 from paper pulp mill. Some metal pcs. First come first serve. Get as many as you want til they are gone. Sorry, can't pick and choose but you'll be happy with them.

MAIL BID LIST #15

Prices Realized

The top selling token was the German Naval Token **S.M.S. Konigsberg** from East Africa which sold at \$209 (#936). No. 149, the probable Cuba bordello shellcard piece sold at \$90 as did the Morocco French Foreign Legion piece (#937). The New Mexico black fibre U.S. Sales Tax Token (#7) held its market value at \$97. A French-language Russian Cafe Token (#912) sold at \$83. The Mexican vulcanite transport token sold at \$80 (#973).

Several collectors like Bob Lyall, Leonard Rothermel and Neil Todd corrected me on Lot 410 which is not Germany at all. It is a 17th Century coal mining token from the west of England.

Lots not listed received no bids or else were too low for consideration. Sales prices are given in amounts rounded to the nearest dollar although in many cases actual bidding may have been somewhat above or below that amount. Figures in parentheses are the number of bidders for any given lot.

German East Africa 1914/15: The Königsberg and its crew were assigned to East Africa under Captain Max Loof in 1914 ostensibly to attend the Fair and Exhibition of the colony scheduled for that year. When war came in August 1914 the ship was assigned to raid British shipping between the Suez Canal and India. There were several sinkings including the British cruiser, HMS Pegasus in Zanzibar harbor. But troubles with low-grade coal taken from raided ships forced the Königsberg to shelter for repairs in the maze of

Rufiji River delta south of Dar-Es-Salaam. It took the British eight months to locate and finally disable the Königsberg. After that Captain Loof and his men joined with the colonial army, bringing their guns and supplies salvaged from the wreck and continuing in the war until 1918 with General von Lettow-Vorbeck.
